ABOUT
COMPANY

K.D. Technologies was established in 2014 with a vision to provide a Software Development and web application development company with experienced IT consultants who can offer valuable business solutions. We help you and your business connect with customers, integrate with vendors and empower employees to work to their fullest potential.

Our committed teams have a unique blend of functional & operational knowledge, technical expertise and result-oriented management experience ranging from Application Development to end to end IT Implementation projects.

K.D. Technologies always tries to create great value and productivity gains for the clients by providing quality solution to various business functions. We bring good experience in information technology, customer service, and global operations by continually combining our strategic thinking with the best in Technology, People, and Process.

With a perfect blend of young and experienced IT professionals, the team has a dual edged advantage of being both dynamic and stable. Both these advantages assure that the organization will be dynamic enough to adapt itself to the fast changing world of Information Technology and is always in a position to provide cutting edge solutions.

How does OMR Sheet
Checker Software Work?

The use of the Addmen OMR software involves four steps which are explained in VIDEOS GIVEN BELOW:

● **Step 01 - Define OMR Test**

The first step is to Define the Test by setting important elements like

OMR test name, date, subjects, number of questions per section, topics, Marking scheme etc.

● **Step 02 - Set Answer Key**

Second step is to set the answer key. The correct answer key is set either manually or by importing it from an Excel sheet. There is also provision to extract answers from a correctly filled answer paper. Assign marking scheme and topic tags to the questions is the next task after feeding the answer key.

● **Step 03 - Read OMR Sheets**

Third step is the actual OMR reading step wheredone once the sheets are filled and scanned. The software evaluates the answers in this stage. Read the scanned OMR sheets and store the data collected. Runtime correction of wrongly-filled sheets is also available.

● **Step 04 - View OMR Results**

Fourth step involves generating the results of OMR tests. Various levels of results can be drawn from raw data export in Excel to detailed tabular and graphical reports. View detailed OMR results like mark lists, checklists, detailed graphical analysis and OMR sheet data in different pre-designed layouts. The results can be exported to Excel, XML, Access, DBase, etc. It is possible to send result by SMS using the inbuilt SMS feature.

It is also possible to integrate the optional Online Score Board to display the results of all the exams attempted by an individual on the institute website.

OMR Answer Sheet
Checker Features

Institutes that organize competitive examinations and practice test sessions find the Addmen OMR answer sheet checker software really useful. Besides saving time, it is also very simple to use. You can get easy results and reports that otherwise an impossible task for the manual evaluation process.
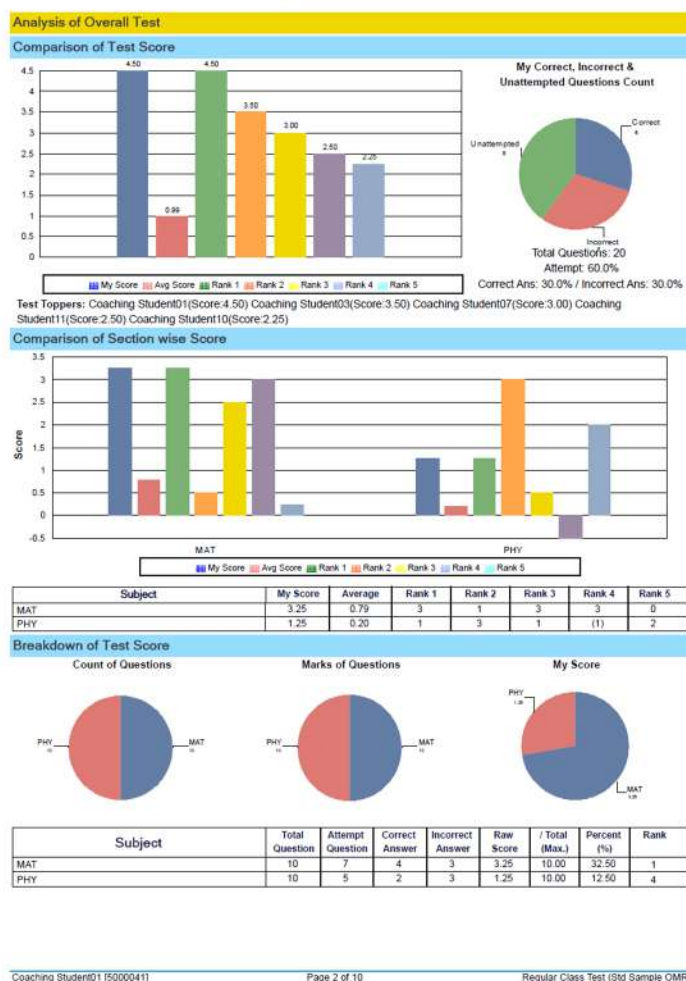

The Addmen OMR software has several features which are the reason why it is the most used OMR software. Here we have highlighted the main ones.

Designing: OMR sheet designer software option is available with the answer sheet checker software, making it possible to create unlimited new OMR answer sheets whenever you want to.

Printing: Regular printing or copier papers can be used to print the OMR sheets, making OMR software much cheaper than other OMR solutions which require special thick papers that are expensive.

Scanning: You do not need a specialized scanner to scan these sheets. The software reads sheets that are scanned using any regular flat-bed or automatic sheet-fed image scanner.

Computer: You need to have a computer with Windows 7/8/10 to run the OMR answer sheet checker software. There is no need for an internet connection to scan and read the sheets.
